# CS WEIJERS BLOEMBOLLEN

*Bijzondere Bol- en Knolgewassen*

Geachte relatie,

Voor u ligt onze nieuwe catalogus met zomerbloeiende bolgewassen voor levering **voorjaar 2026**.

Een bijzonder moment, want dit is waarschijnlijk de honderdste editie. Honderd jaar geleden begon de heer C.S. Weijers met het telen van dahlia's. Hoe mooi is het dat de dahlia een eeuw later nog altijd een prominente plaats inneemt binnen ons assortiment? In de afgelopen decennia is ons sortiment bijzondere bol- en knolgewassen gestaag uitgebreid, met als nieuwste toevoeging het gladiolenassortiment van Forever. Uiteraard zullen wij op een later moment uitgebreid stilstaan bij ons 100-jarig bestaan.

Ook in deze uitgave hebben wij ons handelssortiment geactualiseerd. Bekende rassen hebben plaatsgemaakt voor veelbelovende nieuwe cultivars in diverse productgroepen. Bent u op zoek naar een bol- of knolgewas dat niet in deze catalogus is opgenomen? Laat het ons gerust weten—wij gaan graag voor u op zoek.

U stelt als klant steeds hogere eisen aan levertijden en leverbetrouwbaarheid. Door tegenvallende oogsten is dit het afgelopen seizoen niet altijd gelukt. Wij blijven echter streven naar optimale kwaliteit en betrouwbaarheid.

Daarom selecteren wij onze leveranciers met zorg; in veel gevallen gaat het om langdurige samenwerkingen die soms al generaties teruggaan. Daar zijn wij trots op.

De sector bevindt zich midden in een belangrijke transitie, onder andere rondom het gebruik van gewasbeschermingsmiddelen. Wij zijn trots dat de sierteeltsector hierin grote stappen zet. Transparantie in de sierteeltketen is onmisbaar, en certificering speelt hierbij een belangrijke rol. Ons bedrijf is, naast Skal, ook MPS-gecertificeerd (MPS-Florimark Good Trade Practice). Hiermee tonen wij aan dat wij met respect voor mens en milieu werken. Het certificaat staat voor transparantie, betrouwbaarheid en verdere professionalisering van onze sector. Daarnaast zijn wij sinds 2023 lid van FSI 2025 (Floriculture Sustainability Initiative), een inspirerend initiatief dat perfect aansluit bij onze duurzaamheidsambities. Meer informatie vindt u op [www.fsi2025.com](http://www.fsi2025.com).

De in deze catalogus vermelde prijzen zijn **vrijblijvend en richtinggevend** en gebaseerd op de huidige marktsituatie ten tijde van het verschijnen van publicatie. Voor actuele prijsinformatie kunt u uiteraard contact met ons opnemen. Voor grotere aantallen maken wij graag een passende offerte. Wij streven naar een zo optimaal mogelijke dienstverlening. Daarom ontvangen wij uw aanvragen graag via [sales@csweijers.nl](mailto:sales@csweijers.nl).

Ten overvloedige melden wij dat al onze verkopen en leveringen plaatsvinden volgens onze algemene verkoop- en leveringsvoorwaarden, klik op de QR-code op pagina 3 van deze catalogus.

Heeft u nog vragen? Bezoek dan onze website [www.csweijers.nl](http://www.csweijers.nl) of neem contact op met één van onze verkopers.

Wij hopen u ook dit jaar weer van dienst te mogen zijn—op de manier die u al sinds **1926** van ons gewend bent.

Met vriendelijke groet,

**C.S. Weijers & Zonen B.V.**

## Dienstverlening op maat

### Standaardisatie- en telvergoeding

Om de doorlooptijd van de orders te bevorderen hebben wij een verdere standaardisatie doorgevoerd. Wij leggen dit graag uit aan de hand van onderstaand voorbeeld:

De soorten aangemerkt met # worden uitsluitend geleverd in een honderdtal of een veelvoud daarvan. De bestelde aantallen worden dan ook automatisch naar het eerstvolgende honderdtal afgerond. (voorbeeld: 175 stuks wordt 200 stuks) U betaalt hierdoor geen telvergoeding voor deze artikelen!

Voor de overige soorten geldt:

\* per volle colli

\* bij afwijkend aantal brengen wij telvergoeding in rekening.

### Kant en klaar afleveren

Wij kunnen ook uw bestelling kleinverpakken. U bepaalt zelf de gewenste aantallen per verpakking. Tevens bieden wij aan onze klanten de mogelijkheid om de orders "conform de specifieke landeisen te bestellen". Vraagt u gerust naar de mogelijkheden.

### Certificaten

Voor de uitvoer van importartikelen is het noodzakelijk een gewaarmerkte copy-conform te ontvangen. Het is van groot belang duidelijk bij uw bestelling door te geven naar welk land u wilt exporteren. Het door de Bloembollen Keuring Dienst gewaarmerkte document (Copy-conform) moeten wij aan u doorbelasten à € 3,00 per stuk.

### Cites

Gewassen die vallen onder de Cites regelgeving mogen uitsluitend buiten de Europese Unie geëxporteerd worden met een Cites (weder-) uitvoervergunning. Deze vergunning kunt u aanvragen bij de rijksdienst voor ondernemend Nederland ([mijn.rvo.nl](http://mijn.rvo.nl)). U heeft hiervoor een kopie van onze invoervergunning nodig. Het is daarom belangrijk ons vooraf te informeren of de door u gekochte bloembollen buiten de Europese Unie geëxporteerd gaan worden.

### Plastic leliekratten

Nieuwe leliekratten worden voor € 3,50 doorberekend en voor € 2,50 gecrediteerd bij het terugbrengen. Wij nemen alleen leliekratten terug die door ons geleverd zijn.

# CS WEIJERS BLOEMBOLLEN

*Exceptional flower bulbs and tubers*

Dear valued customer,

Before you lies our new catalog with summer-flowering bulbous plants for delivery in the **spring of 2026**.

A special moment, because this is probably the hundredth edition. One hundred years ago, Mr. C.S. Weijers began cultivating dahlias. How wonderful is it that the dahlia still holds a prominent place in our assortment a century later? Over the past decades, our range of special bulb and tuber plants has steadily expanded, with the newest addition being Forever's gladiolus assortment. Of course, we will take a closer look at our 100th anniversary at a later stage.

In this edition as well, we have updated our commercial assortment. Well-known varieties have made way for promising new cultivars in various product groups. Are you looking for a bulb or tuber crop that is not included in this catalog? Please let us know—we would be happy to search for it for you.

As a customer, you continually demand higher standards for delivery times and reliability. Due to disappointing harvests, this has not always been possible in the past season. However, we continue to strive for optimal quality and reliability. That is why we carefully select our suppliers; in many cases, these are long-term partnerships that sometimes go back generations. We are proud of that.

The sector is in the midst of an important transition, including in the use of crop protection products. We are proud that the ornamental plant sector is making significant progress in this regard. Transparency in the ornamental plant supply chain is essential, and certification plays an important role in this. Our company, in addition to being Skal-certified, is also MPS-certified (MPS-Florimark Good Trade Practice). This demonstrates that we operate with respect for people and the environment. The certificate stands for transparency, reliability, and further professionalization of our sector. In addition, since 2023 we have been a member of FSI 2025 (Floriculture Sustainability Initiative), an inspiring initiative that perfectly aligns with our sustainability ambitions. More information can be found at [www.fsi2025.com](http://www.fsi2025.com).

The prices listed in this catalog are non-binding, indicative, and based on the market situation at the time of publication. For current price information, you are of course welcome to contact us. For larger quantities, we would be happy to provide a suitable quotation.

We strive to provide the best possible service. Therefore, we prefer to receive your requests via [sales@csweijers.nl](mailto:sales@csweijers.nl). For the sake of clarity, we would like to inform you that all our sales and deliveries are carried out in accordance with our general terms and conditions of sale and delivery, click on the QR code on page 3 of this catalog.

Do you have any questions? Then visit our website [www.csweijers.nl](http://www.csweijers.nl) or contact one of our sales representatives.

We hope to be of service to you again this year—in the way you have been accustomed to from us since **1926**.

With our best regards,

**C.S. Weijers & Zonen B.V.**

## Customised service

### Customised service

At C.S. Weijers & Zonen B.V., quality and service are our top priority. For years now this has been reflected in our ability to supply any possible quantity. In order to maintain our high level of service, we have been forced to introduce standard quantities for delivery. Does this mean that I can only purchase the standard quantities? No, we are still able to deliver any quantity at all. However, we now need to charge a counting surcharge for amounts other than the standard quantities. This new measure will enable us to continue to offer the best possible customised service.

- The standard quantities are multiples of 100 (#) or full trays.
- We are required to pass the import item certification costs on to you, at €3.00 each.

### Delivered ready to go

Discussions with our customers have shown that there is a demand for pre-packed quantities. We have responded to this demand and now have access to modern packaging facilities. This means that we are able to deliver any quantity in pre-packaged form. We also offer our customers the option of requesting their orders to be delivered ready for export.

Please get in touch with us to discuss the options.

### Fast delivery

Rapid order fulfilment is more important than ever before. The use of (pre-packaged) standard quantities and an efficient logistics system enables us to deliver our products to customers within the shortest possible time frame.

We are constantly working to achieve an optimal service level, putting you – the customer – first.

If you have suggestions or questions, please don't hesitate to let us know.

### Plastic crates

For **new** plastic crates we will charge € 3,50 a crate. For crates supplied by us and returned to our company we will credit the returned crates at € 2,50 a crate.

### Belangrijke informatie voor Citesplichtige gewassen

Gewassen die vallen onder de Cites regelgeving mogen uitsluitend buiten de Europese Unie geëxporteerd worden met een Cites (weder-) uitvoervergunning. Deze vergunning kunt u aanvragen bij de Rijksdienst voor Ondernemend Nederland (mijn.rvo.nl). U heeft hiervoor een kopie van onze invoervergunning nodig. Het is daarom belangrijk om ons vooraf te informeren of de door u gekochte bloembollen buiten de Europese Unie geëxporteerd gaan worden.

## Gebruikte afkortingen:

V = vroeg(bloeiend)

M = midden(bloeiend)

L = laat(bloeiend)

Levertijd: 1 september - 1 mei

Gloriosa carsonii

Gloriosa superba

Gloriosa superba 'Greenii'

Gloriosa superba 'Rotschildiana'

Gloxinia Corina

Gloxinia Defiance

Gloxinia Kaiser Friedrich

Gloxinia Tigre Blue

Gloxinia Etoile de Feu

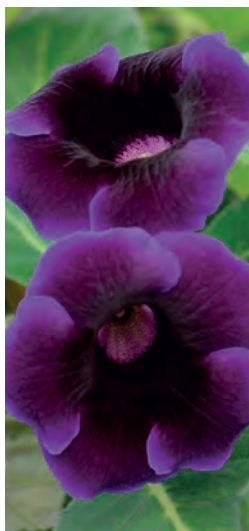

Gloxinia Kaiser Wilhelm

Habenaria radiata Aoba

Gloxinia Tigre Red

Gloxinia Violacea

Habranthus robustus

## Gloriosa

**carsonii** purper met gele rand, import  
**superba** zacht oranje met geel, bloembladen geruffeld, import

– ‘Greenii’ geelgroen, import  
 – ‘Lutea’ geel, import  
 – ‘Rothschildiana’ warm rood, geel gerand, Hollands geteeld

– ‘Rothschildiana’ warm rood, geel gerand, import

## Gloxinia

(syn. *Sinningia*)

**Blanche de Méru** roze met wit

**Corina** rood

**Défiance** donkerrood

**Etoile de Feu** rood

**Hollywood** blauw

**Kaiser Friedrich** rood met witte rand

**Kaiser Wilhelm** blauw met witte rand

**Mont Blanc** zuiver wit

**Prins Albert** paarsblauw

**Tigre Blue** blauw, getijgerd

**Tigre gemengd** gemengde kleuren, getijgerd

**Tigre Red** rood, getijgerd

**Violacea** diep fluweelblauw

## Habenaria (Pecteilis) (Vogelorchidee) (Citesplichtig)

**radiata Aoba** wit, import

## Habranthus

(Regenlelie)

**robustus** (syn. *Zephyranthes robustus*), roze, Hollands geteeld

**robustus** (syn. *Zephyranthes robustus*), roze, import

## Roos van Jericho zie *Selaginella*.

### Roscoeia (vaste plant)

|                        |                           |
|------------------------|---------------------------|
| <b>alpina</b>          | lilapurper                |
| <b>auriculata</b>      | paars, wit oog            |
| <b>'Beesiana'</b>      | crème met paars gestreept |
| <b>'Beesiana Alba'</b> | wit                       |
| <b>purpurea</b>        | lila                      |
| <b>– 'Peacock'</b>     | lila                      |
| <b>– 'Vincent'</b>     | kersenrood                |

### Sauromatum (Voodoo lelie)

|                  |                                                             |
|------------------|-------------------------------------------------------------|
| <b>giganteum</b> | (syn. Thyponium), pijlvormige groene bladeren               |
| <b>venosum</b>   | (syn. Arum cornutum, syn. Sauromatum guttatum), purperbruin |

### Scadoxus (Poederkwast)

|                                     |                                                                |
|-------------------------------------|----------------------------------------------------------------|
| <b>multiflorus ssp. multiflorus</b> | (syn. Haemanthus multiflora), rood, balvormige bloemen, import |
|-------------------------------------|----------------------------------------------------------------|

### Schizostylis (Hesperantha) (Moerasgladiol) (vaste plant)

|                  |                          |
|------------------|--------------------------|
| <b>coccinea</b>  | (syn. Hesperantha), rood |
| <b>– 'Alba'</b>  | (syn. Hesperantha), wit  |
| <b>– 'Rosea'</b> | (syn. Hesperantha), roze |

### Selaginella

|                     |                          |
|---------------------|--------------------------|
| <b>lepidophylla</b> | Roos van Jericho, import |
|---------------------|--------------------------|

### Sparaxis (Zigeunerbloem)

|                 |               |
|-----------------|---------------|
| <b>tricolor</b> | prima mengsel |
|-----------------|---------------|

### Sprekelia (Goudlelie of Jacobslelie)

|                     |                                           |
|---------------------|-------------------------------------------|
| <b>formosissima</b> | (syn. Amaryllis formosissima), donkerrood |
|---------------------|-------------------------------------------|

### Tacca

|                               |                                                                        |
|-------------------------------|------------------------------------------------------------------------|
| <b>chantrieri</b>             | groenachtig blad met exotische bloemen, voor kascultuur, import        |
| <b>– 'Black'</b>              | groenachtig blad met zwarte exotische bloemen, voor kascultuur, import |
| <b>– 'Green Isle'</b>         | intens groen blad met exotische bloemen, voor kascultuur, import       |
| <b>integrifolia 'Selecta'</b> | groen blad met witpaarse exotische bloemen, voor kascultuur, import    |
| <b>nivea</b>                  | witte exotische bloemen, voor kascultuur, import                       |
